

Nav Bar

current: my lists shop for others my groups my events news feed

↳ off to the side are:
my shopping list
&
settings

these two can be
combined

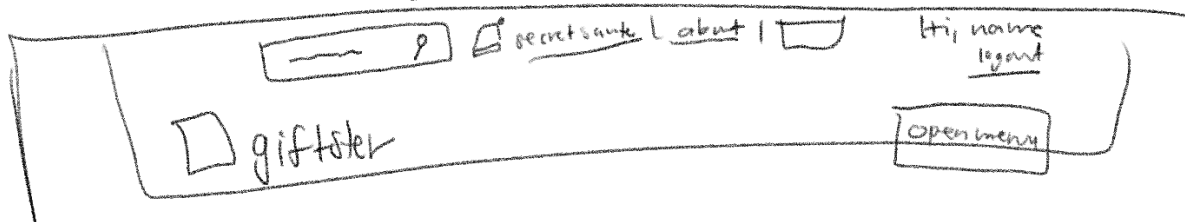

⇒ too far off to be seen if you did not
do a good scan of the navbar / page

redesign: my lists shop for others my groups ~~events~~ my shopping list news feed

→ settings can possibly move by where it says "hi, name" logout

⇒ Hi, name
logout settings

↳ B/c usually to go to settings you'd click on
your name or profile

information architecture:

card sorting:
